### 16 CFR Chapter II

[Docket No. CPSC-2018-0014]

#### Resubmission of Petition To Mandate a Uniform Labeling Method for Traction of Floor Coverings, Floor Coverings With Coatings, and Treated Floor Coverings; Request for Comments

**AGENCY:** Consumer Product Safety Commission.

**ACTION:** Notification of petition for rulemaking.

**SUMMARY:** The U.S. Consumer Product Safety Commission (CPSC) received a resubmitted petition from the National Floor Safety Institute (petitioner or NFSI), requesting that the agency require manufacturers of floor coverings and coatings to label their products and provide point of purchase information regarding slip-resistance, using the American National Standards Institute

(ANSI) B101.5-2014 *Standard Guide for Uniform Labeling Method for Identifying the Dynamic Coefficient of Friction (Traction) of Floor Coverings, Floor Coverings with Coatings, and Treated Floor Coverings* (ANSI B101.5). The Commission invites written comments concerning this petition.

**DATES:** Submit comments by August 6, 2018.

**ADDRESSES:** Submit comments, identified by Docket No. CPSC-2018-0014, by any of the following methods:

**FOR FURTHER INFORMATION CONTACT:** Rocky Hammond, Office of the Secretary, Consumer Product Safety Commission, 4330 East West Highway, Bethesda, MD 20814; telephone: 301-504-6833; email: [RHammond@cpsc.gov](mailto:RHammond@cpsc.gov).

**SUPPLEMENTARY INFORMATION:** On April 19, 2018, NFSI submitted a petition, docketed as CP 18-2, requesting that the Commission require manufacturers of floor coverings and coatings to label their products, and provide point-of-purchase information regarding slip-resistance, using the ANSI B101.5

voluntary standard. NFSI's petition request is a resubmission of a prior petition (CP 16-1), which the Commission voted to deny.<sup>1</sup> The resubmitted petition contains certain modifications and additional information.

As with the previous petition, NFSI states that it seeks to reduce injuries and fatalities related to consumer slips and falls, particularly involving the elderly, by requesting CPSC to mandate that floor coverings for sale to consumers be labeled to provide information about the traction of each product. NFSI states that different types of floor coverings have wide ranging differences in slip-resistance, which can make certain types of flooring inappropriate for a specific use. NFSI contends that currently, consumers have no uniform information to compare differences in traction with various floor covering options. NFSI states that the labeling it urges is easy to understand and will benefit consumers, particularly the elderly, by informing consumers of the traction or safety of the products at the point of sale.

Responding to commenters' and the Commission's concerns regarding the previous petition (CP 16-1), NFSI made modifications to the current petition request and provided additional information to support its petition for rulemaking. By this notice, the Commission seeks comments concerning this renewed petition, including whether the modifications and additional information provided by NFSI address the concerns set forth in the Commission's January 19, 2017 letter to NFSI denying petition CP 16-1.<sup>2</sup> In particular, the Commission seeks comment on the petitioner's proposed method for determining wet dynamic coefficient of friction, and whether such method is accurate and repeatable on all hard surfaces that would be subject to the proposed labeling.

The petition is available at: <http://www.regulations.gov>, under Docket No. CPSC-2018-0014, Supporting and Related Materials. Alternatively, interested parties may obtain a copy of the petition by writing or calling the
