# WHY SHOULD YOU AUTOMATE?

ERDMAN® HIGH SPEED IG LINE

## Automation is Not Just About Cycle Time and Output. Did You Know Automating IG, Glazing and Screen Production Does These Things?

- Reduces the revolving door of employees that often are your largest risk of quality, performance and safety. For example: work loss incidents and training time consumption.
  - Reduces some of the most dangerous work stations that can cause injury and trap skilled workers.
  - Creates opportunities for your trusted long-term employees to grow fostering loyalty and increased performance.
  - Reduces the need for that needle in the haystack employee that can lay the spacer perfectly, put down the perfect bead of silicone and make a screen square with no screen mesh sag.
  - Reduces or eliminates extra labor in downstream areas like final assembly and glazing bead assembly .
  - Make a better and cleaner looking window that just may make the difference in gaining or losing a customer.
- Visit [www.erdmanautomation.com](http://www.erdmanautomation.com) or call 763-389-9475 for more information.

VISIONARY THINKING. EXCEPTIONAL DOING.

ERDMAN

# WELCOME TO GLASSBUILD

## SEPTEMBER/OCTOBER 2024

On behalf of the National Glass Association (NGA), the Board of Directors, our association and event sponsors, and—of course—the 537 industry suppliers exhibiting, it is my pleasure to welcome you to GlassBuild America's first-ever time in Dallas.

We're excited to be here. Bringing GlassBuild to a new location – to *Dallas* – has invigorated participation by exhibitors and attendees alike, opened us up to new educational offerings, and allowed us to add new opportunities for you to experience this week. This is one of the largest editions of GlassBuild in its 21-year history.

I encourage you to take advantage of all that GlassBuild offers – visit the GlassBuild Main Stage to hear experts speak on a variety of topics, catch up with industry peers and friends, and explore something new on the show floor to expand your mind and your business to new possibilities.

In closing, don't forget to make time in your schedule to stop by the Industry Pavilion in booth #17009 to visit NGA's MyGlassClass.com Learning Lab for interactive demos of online employee training for installers, glass fabricator personnel, and glazier apprentices. I'm proud to announce that the NGA Board of Directors recently voted to make all of NGA's courses for installers and glass fabricator personnel **free to individuals from NGA member companies**. One of NGA's core goals is for education and training to drive industry excellence and I believe this will have a positive, and lasting, impact across the entire supply chain.

I look forward to seeing you on the show floor.

## INDUSTRY PAVILION

### Solutions Abound in the Industry Pavilion

As the saying goes, there is a solution to every problem. That adage fits the Industry Pavilion at GlassBuild America perfectly. The Industry Pavilion, booth #17009, is where you'll find the association sponsors of GlassBuild, NGA and FGIA, offering up the solutions their members need. Stop by to find out the resources the industry's trade associations have for you.

NGA is an education, advocacy and technical powerhouse on all things glass. We bring the best minds to the table to offer education and training opportunities for the future workforce, share technical and codes knowledge with members and industry stakeholders alike, and relentlessly promote and advocate for glass in buildings.

The NGA member community is 1,800+ companies strong.

NGA's technical papers, manuals, and business resources help guide you and your company to success. Glass Magazine and Window + Door, NGA's official publications, bring news, products and financial insights directly to you. Our many events throughout the year provide a gathering place for you to learn, share, engage, and make connections. And NGA is committed

to helping companies raise awareness of the glass and glazing industry, particularly among high school students and young people, by offering recruitment materials to our members.

Among its impressive offerings, NGA offers top-notch education opportunities for the current and future workforce through MyGlassClass.com—a collection of training courses for glass installers, fabrication personnel, and glazier apprentices. NGA will feature the MyGlassClass.com Learning Lab in the Industry Pavilion during GlassBuild to give interactive demos on all of its course offerings. And just announced – NGA courses for glass installers and fabrication personnel are free to individuals from NGA member companies!

Stop by booth #17009 or visit [glass.org](http://glass.org) to learn more.

The Fenestration and Glazing Industry Alliance (FGIA) is dedicated to improving home and building performance through better glass, window, door and skylight technology and standards. Designed to help our members excel in a dynamic and fast-moving future, FGIA is focused on building better industry synergies from glass to framing.

We are an inclusive community leading the glass and fenestration industry through research, consensus-based standards, product certification, advocacy and education and professional development.

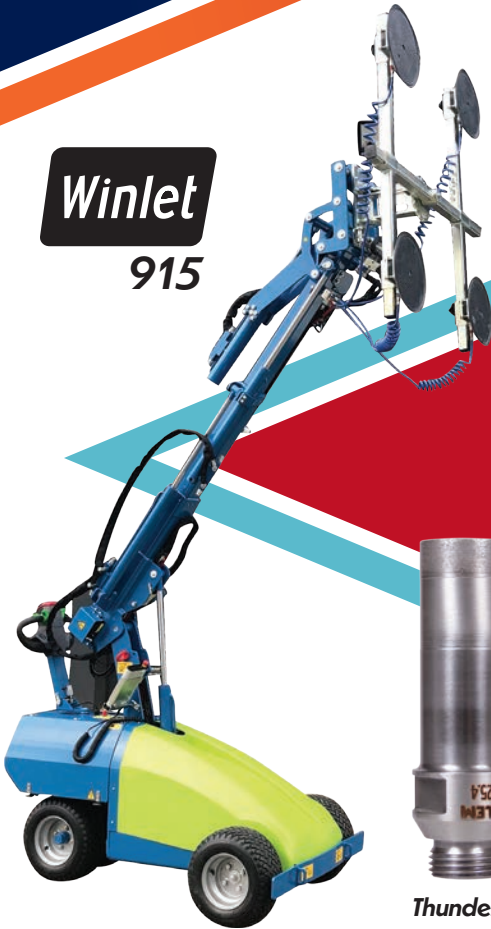

For more information, visit [FGIAonline.org](http://FGIAonline.org) or contact [membership@FGIAonline.org](mailto:membership@FGIAonline.org). Join us in the Industry Pavilion, booth #17009, during the show.

## EDUCATIONAL PROGRAMS

### 2024 Glazing Executives Forum

Don't miss out on the premier event for glazing contractors to learn, network, and tackle industry challenges. At this one-day conference, leaders of contract glazing and full-service glass companies come together to learn and share best business practices.

All events will take place at the Kay Bailey Hutchison Convention Center, rooms D1-4. The program includes lunch and beer break, plus admission to the GlassBuild America trade show floor.

*Separate registration required.*

*As of Aug. 30, 2024. Schedule is subject to change.*

### Monday, September 30

---

8:00 am-9:00 am

#### **NGA Installing Committee Meeting**

Breakfast included.

9:30 am-9:45 am

#### **Opening Remarks**

9:50 am-10:20 am

#### **Developing a [Risk] Futurecasting Skillset**

Speaker: Matt Johnson,  
attorney, The Gary Law Group

10:35 am-10:55 am

#### **Using Technology to Build Your Team**

Speaker: Stefanie Couch,  
founder, GRIT Blueprint,  
Build Women

11:00 am-11:15 am

#### **Networking Break**

11:20 am-11:50 am

#### **Estimating Best Practices**

Speakers:

Joe Lambertson,  
executive vice president,  
Country Glass & Mirror Inc.

Christopher Medina,  
estimator, Grand View Glass

Eric Miller, CEO, TRUE

12:00 pm

#### **Lunch**

CAN DO

## EDUCATIONAL PROGRAMS

2:00 pm

### **Beer Break & Networking**

2:45 pm-4:15 pm

### **Workshop Tracks**

Afternoon extended workshop/solutions share tracks. Registrants choose one track.

#### **Workshop Track 1**

##### **AI at Your Glazing Company**

*Workshop Leader:*

Stefanie Couch, founder, GRIT Blueprint, Build Women

Don't miss an interactive AI workshop tailored for the glazing industry, led by professional brand marketing and technology expert Stefanie Couch. Attendees will learn to leverage AI tools for enhanced business operations, guided by practical demonstrations and hands-on exercises. Bring your laptops, as participants are encouraged to work alongside Couch to explore AI solutions for your glazing business strategies.

#### **Workshop Track 2**

##### **Shower Enclosures Solutions Share**

*Workshop Leaders:*

Danny Donahue, brand manager, FHC The Glazing Supply Company

Karen Wegert, director, technical services, National Glass Association

Georgia Scalfano, sustainability manager, technical services, National Glass Association

Join other shower enclosure installation professionals for a conversation and solutions share about the top challenges and opportunities facing companies today. The workshop session will be led by Danny Donahue of FHC, with support from the National Glass Association's advocacy and technical team. Don't miss an opportunity to connect with peers in the field and to help set the course for development of industry-wide resources for shower enclosure companies.

#### **Workshop Track 3**

##### **Effective Recruitment Strategies**

*Workshop Leader:*

Jenni Chase, vice president, workforce development, National Glass Association

Attendees to this workshop will leave with immediately actionable take-home strategies and tools for recruiting new employees and building up the next generation of glaziers. The session will be led by Jenni Chase, vice president of workforce development for the National Glass Association, and Dan and Jodi Martinez, president and vice president of AllStar Glass. Learn how to recruit at technical schools, high schools, and via social media. Participants will come away with a recruitment tool kit, including stickers, postcards, and a copy of NGA's new resource, A Guide to Recruiting at High School Career Fairs.

Chris Beard, director of Building Products Research, John Burns Research and Consulting

4:00 pm-4:45 pm

#### **Residential Fenestration Trends | Performance Innovations and Security Screens**

Speakers:

Amy Becker, FGIA Glass Products Specialist

Jason Seals, FGIA Certification Services Manager, Fenestration

In recent times Vision has received many inquiries about constant force balancers and the need for an additional source became apparent. Several years in the making have yielded a comprehensive offering sure to meet your current and future needs.

## VISION CONSTANT FORCE BALANCE SYSTEM

# An Easy Lift!

Vision has subjected our balancers to rigorous third-party testing to ensure consistent reliability in every application. With a full range of weights, packed with features, our plug-and-play system is readily available to be added to your supply agreements. Once your dedicated stock is in our inventory you will enjoy next-day pickup or shipping as you have with all Vision parts. At Vision Hardware, we recognize the critical importance of providing reliable and efficient window hardware components consistently and reliably to our manufacturing partners. (Patent Pending)

**Next day pick-up or 24 hour shipping.  
In-stock and ready for delivery**

**GlassBuild  
AMERICA**  
THE GLASS, WINDOW & DOOR EXPO

Booth: 22027

### Constant Force Balance Features:

- A full range of single, double, triple, and quad balances up to 44 pounds.
- Preassembled to meet your exact specifications for easy integration.
- Integrated pivot bar containment option available
- Easy reconfiguration if needed, providing adaptability to changing requirements.
- Multiple housing options and brake forces are available to suit your needs.
- Various pivot bars and mounting clips are available to accommodate your unique design.
- Open cam design allows for a lift-out sash with a single non-handed SKU.
- Tensioning screw enables customizable friction on cusp weights.
- Independently tested and listed on the AAMA-approved product list for quality assurance.

## EDUCATIONAL PROGRAMS

### **Tuesday, October 1**

#### **Workforce Development Day**

---

Companies' biggest challenge is labor—specifically finding, training, keeping and protecting employees. Day two of Main Stage content is dedicated to providing business owners with take-home strategies to address ongoing workforce hurdles.

10:30 am-11:00 am

#### **How to Develop a Successful Internal Training Program**

*Presentation Sponsor: FHC The Glazing Supply Company*

Speakers:

Jenni Chase, vice president, workforce development, National Glass Association

Jeff Dalaba, director of program development, AGMT Glazier Certification

11:30 am-12:00 pm

#### **Building a Recovery-safe Workplace**

Speakers:

Cal Beyer, senior director, SAFE Workplaces

Dave Argus, director of operations, Karas and Karas Glass

12:30 pm-1:30 pm

#### **Keynote: Building the World We Want to See**

*Keynote Sponsor: NGA Workforce Development*

Keynote Speaker:

Emily Pilloton-Lam, designer, builder, educator and author, and founder and executive director of the nonprofit Girls Garage

2:00 pm-2:30 pm

#### **Leveraging Your Network for Efficient Professional Development**

Speaker:

Janice Yglesias, executive director, FGIA

3:45 pm-4:15 pm

#### **Glass Magazine Awards Presentation**

### **Wednesday, October 2**

#### **Women in Glass + Fenestration**

---

The final day of Main Stage programming lifts up initiatives to recruit and elevate more women in the glass and fenestration industries.

9:30 am-11:00 am

#### **Women in Glass + Fenestration Keynote and Networking Breakfast**

*Keynote Sponsor and Premier Partner: YKK AP America*

*Gold Sponsor: Vitro Architectural Glass*

*Breakfast Sponsor: C.R. Laurence Co., Inc.*

Keynote Speaker:

Nicole C. Calhoun, a prominent speaker and workplace leadership trainer who brings 25 years of corporate and technology experience to her training workshops. She has held roles in software engineering, business systems analysis, project management, and learning and development, within industries such as finance, manufacturing, payroll services, automotive.

# we • glass

## we know glass, we love glass

**Bottero S.p.A.** is the only company worldwide engineering, manufacturing, installing and servicing equipments for both Flat and Hollow Glass.

Thanks to its uniqueness, **Bottero S.p.A.** is the best partner for glass producers and processors who are seeking the best technologies to shape one of the most beautiful and useful materials in the world: the glass.

Its unique qualities, combined with the passion for technology and innovation, guide us in seeking for newer and more effective solutions to improve and expand its use.

Since 1957, **Bottero S.p.A.** is passion for technology and innovation to serve Customers worldwide.

With more than 200 glass production equipment items, and more than 50,000 processing machines installed around the world for any type of glass, Bottero is the unmissable partner for everyone who wants to process a piece of glass.

Bottero S.p.A. : #weglass

THE BIGGEST GLASS & FENESTRATION EVENT OF THE YEAR

GLASSBUILD.COM

booth **52025**

we • glass  
[www.bottero.com](http://www.bottero.com)

For the first time ever, GlassBuild America will host the GlassBuild Podcast Studio, centrally located on the show floor, adjacent to the GlassBuild Main Stage in Booth 20009. The Podcast Studio will be home to on-site, video and audio recordings for episodes of the Glass Cast and Window Cast podcasts.

All episodes are distributed in audio forms on all top podcast platforms and in video on YouTube. Visit [glassbuild.com](http://glassbuild.com) for more.

### **The Podcasts**

Glass Cast and Window Cast are created by Glass Magazine and Window + Door magazine, the official publications of GlassBuild organizer the National Glass Association. Hosts include Katy Devlin, NGA Content Director and Editor in Chief of Glass Magazine; Sara Neiswanger, NGA Associate Director of Industry Events; and Laurie Cowin, Editor, Window + Door.

### **The Topics**

During GlassBuild, Glass Cast and Window Cast will record interviews with leaders from top companies, industry influencers and other show VIPs discussing the top show news, industry trends, business opportunities and headwinds, and more.

# The future of residential glass, at your service.

## ClimaGuard™

Glass that performs.  
Teams that deliver.

## GENERAL INFORMATION

### GlassBuild America

---

September 30 – October 2  
Kay Bailey Hutchison Convention Center  
(KBHCC)  
650 S. Griffin St., Dallas, TX 75202

### Registration

Hall D Lobby

#### Sunday, September 29

9:00am-5:00pm  
Exhibitor Registration  
  
1:00pm-5:00pm  
Attendee Registration

#### Monday, September 30

7:00am-5:00pm

#### Tuesday, October 1

9:00am-5:00pm

#### Wednesday, October 2

9:00am-1:00pm

### Badges

At the GlassBuild America trade show, registered attendees receive name badges as part of their registration package. These badges include a QR code embedded with their name, mailing address, phone number, and email address. Attendees can allow their badges to be scanned on the trade show floor, sharing their contact information with specific exhibitors. If you happen to forget your badge in your hotel room or lose it, don't worry! You can get a reprint at registration for \$15.

**Blue Stripe** — Exhibitors

**Red Stripe** — Attendees

It's important to wear your badge at all times during the GlassBuild America trade show. The badge is required for entry to all official functions.

### GlassBuild America Trade Show

The trade show will be held in Halls A, B, C, D and E. F Hall – AGMT Certification, Food Court, Chill 'n Charge Lounge

#### Monday, September 30

10:00 am-5:00 pm

#### Tuesday, October 1

10:00 am-5:00 pm

#### Wednesday, October 2

9:00 am-1:00 pm

We have over 550 exhibitors at GlassBuild America this year. The exhibiting companies and organizations will provide you with the latest information on products and services available to the attendees.

First-time exhibitors and companies with new products will be highlighted in the aisles, on locator signs, and within the exhibitor listings on later pages.

### Food Outlets

Cashless Service

### Sunday, Sept. 29

BBQ and Deli Selection

# Joseph machine

See us at GlassBuild  
America, booth 48037.

## ELEVATE YOUR PRODUCTION WITH JOSEPH MACHINE COMPANY

Automated machinery and software for cutting and fabricating extrusions that cut cycle times, reduce labor, boost quality, eliminate scrap and improve worker safety.

### WHY JOSEPH?

#### Lineal processing automation

Consolidate machines, reallocate labor, improve ergonomics, lower costs and enhance part quality

#### Exceed 95% material yield

Save at least \$800,000/year in material costs with our Zero Scrap Saw and lineal optimization software

#### "Catalog-only" doesn't cut it

Your specs are our marching orders — customizing controls, outfeeds and tooling is just part of the job

#### Unthinkable throughput targets

Need two complex parts completely cut, fabricated and ready for the next step in under 60 seconds? No problem

595 Range End Rd.

8am-3pm

- Go Natural – Serving Deli Selections and Grilled Cheese Sandwich and Tomato Basil Soup
- Kay's Place (Starbuck's) Serving Assorted Pastries and Breads and Assorted Espresso Coffee Drinks

### Housing

Hotel reservations for GlassBuild America are provided by EventSphere, the Official Housing Partner of the National Glass Association.

For any hotel questions, please contact EventSphere at 678-704-8712 or by email at [glassbuild@eventsphere.com](mailto:glassbuild@eventsphere.com). GlassBuild attendees and exhibitors will be notified when housing opens for GlassBuild America 2025 in Orlando.

### Lost and Found

There is a 24/7 dispatch office where lost and found items can be delivered. Their number is 214-939-2942. You may also go

to the Information Booth or Help Desk at Registration. Or you may scan the QR code to report a lost item.

### Security

GlassBuild America has taken security seriously by contracting for general security services. Guards will be stationed at the exhibit hall entrances to verify that only registered participants gain access. In case of any security-related incidents, attendees should promptly seek assistance from a security guard or a GlassBuild America staff member. These measures complement the existing Building Security Staff already present at the KBHCC. Safety first!

### How to Report an Incident or Concern

In case of any concerns or emergencies during GlassBuild America, attendees can seek assistance from NGA staff members at various locations such as the Industry Pavilion, Main Stage, Sales Office, or Registration. For immediate security matters, calling KBHCC Security Dispatch at 214-939-2940 or 2941 is crucial.

Together, we can ensure a safe and well-coordinated response to any issue that may arise, whether it's related to natural disasters, accidents, or other unforeseen situations.

# WE LOVE COMMERCIAL DOOR HARDWARE.

**At Orchard Lock,** we're hardware fanatics, dedicated to providing you with the highest quality products from leading brands. Experience excellence, innovation, and unbeatable industry pricing with us!

## EXIT DEVICES

Concealed Vertical Rod, Mortise, Surface Vertical Rod

## DOOR CLOSERS

Overhead, Concealed, Floor, Surface

## LOCKSETS

Mortise, Cylindrical, Multipoint

## ELECTRIFIED HARDWARE

Electric Strikes, Power Supplies, Operators, Magnetic Locks

## TRIM & ACCESSORIES

Continuous Hinges, Thresholds, Pivots, Door Pulls

**LET US QUOTE YOUR NEXT JOB AND SHOW YOU OUR COMPETITIVE EDGE!**

**Send your take-offs to: [estimating@orchardlock.com](mailto:estimating@orchardlock.com)**

See us at GlassBuild America, booth 20026.

Orchard Lock has direct access to all of the premier brands including:

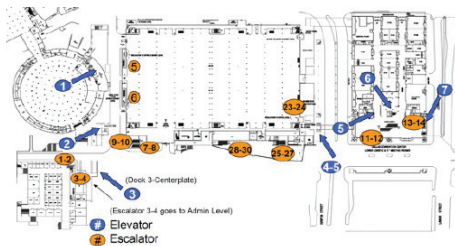

[www.orchardlock.com](http://www.orchardlock.com) | 800.233.2146

## GENERAL INFORMATION

### Accessibility

KBHCC is ADA compliant. It is our goal to implement new standards as they are introduced. In accordance with the ADA, we are responsible for and provide permanent, premises access accommodations such as, but not limited to: wheelchair lifts, elevator standards, door width standards and restroom accessibility.

### Scoter Rental

AABCO Ready Rental Sales & Services  
Tel: 972-412-3500  
[www.readyrentalmedical.com](http://www.readyrentalmedical.com)

### Scootaround

Tel: 888-441-7575  
[www.scootaround.com](http://www.scootaround.com)

### Wi-Fi Networks

Free internet is available in the lobbies, meeting rooms and ballrooms. Scan for wireless connections and choose free internet. Click connect once the splash page loads.

For additional service, contact Smart City Networks, 214-853-8900.

### Transportation

#### Ride Share

Ride share pick-up and drop-off is down in the Lower C Driveway. There is no address for that location, so please refer to the Ground Level map on page 56. It is the area outside of the C Lower Lobby

#### Bus/Train

Public transportation is readily available and convenient. Amtrak and the Trinity Railway Express both service Eddie Bernice Union Station, which is located just 2 1/2 blocks northeast of the Convention Center. Dallas Area Rapid Transit (DART) has a light rail station at the Convention Center. To travel by public transportation, the Convention Center Station is served by the downtown segment of the DART Red and Blue Rail lines. The DART train station is directly behind the Kay Bailey Hutchison Convention Center and within easy walking distance of the front door. The DART rail station is on Lamar Street at Memorial Drive.

#### Parking

Ace Parking is the KBHCC parking provider to include a garage and two surface parking lots (lots C and E). The addresses and daily fees are as follows:

Parking Garage - \$20  
Intersection of Memorial Dr & S Griffin St.

Parking Lot C - \$17  
502 S Lamar St.

Parking Lot E - \$12  
500 Memorial Dr.

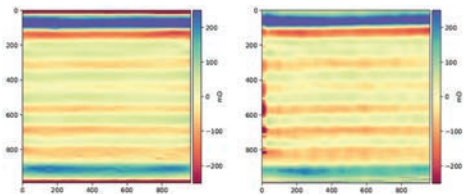

## TEMPER SCANNER 5D - THE COMPLETE SOLUTION

Viprotron is proud to add a **new innovation** to its product range. Our strong focus on defect detection in insulated glass, has steadily expanded over the years to include cutting, fabrication, lamination and finally tempering.

Now we are introducing new, advanced technology for improving tempering distortion detection. We will enhance our award-winning Anisotropy + Haze Scanner by adding a **Distortion** and **Edge Kink Scanner** to our system. All five functions (Distortion/ Edge Kink, Anisotropy, Haze, Brightfield & Reflection Channel for optical defects) are available in one complete solution or as individual scanners.

Our new, innovative and patented technology is producing excellent results when compared to actual tactile measurements of Distortion and Edge Kink in Milli Diopters (mD). And, with True Edge™ technology, we provide accurate data from the leading edge all the way to the trailing edge.

## GENERAL INFORMATION

1. Upon entrance into the garage, push the button on the machine and pull your ticket.
2. Proceed to park your vehicle, take your ticket with you, remember to secure your belongings and lock your doors.
3. Enjoy your time at the KBHCC!
4. When you are ready to leave, pay for your parking via one of the following options: A) pay station or B) at the exit.

Phone: 214-670-4255 for the ACE Parking Manager.

### **Policies & Procedures**

---

#### **Photography**

It is essential to respect the exhibitors' wishes regarding photography and video recording. Attendees should always seek permission before capturing booth displays or products. Violation of this policy risks having their device confiscated or being evicted.

#### **Children in the Exhibit Hall**

It is crucial for parents to accompany and supervise children under 16 while exploring the exhibit areas at GlassBuild America. Strollers are allowed during published show hours, but attendees should be aware of the associated risks. Attendees assume all risks associated with the use of strollers on the show floor, including but not limited to personal injury or property damage

#### **Unauthorized Solicitations/Suitcasing**

Solicitation or promotion of products and services to attendees or exhibitors from non-exhibitors is strictly prohibited. The official definition of suitcasing is the parasitic business practice in which unethical companies will gain access to an event by obtaining some type of event credential (e.g., attendee badge, expo-only badge, etc.) and then solicit business in the aisles or other public spaces used for the event.

For those unfamiliar with the term, suitcasing refers to non-exhibitors who go to an event as an attendee, but pass out information, samples, etc. about their business from a suitcase, literally and figuratively. Suitcasers do not pay to exhibit, and yet they are enjoying access to attendees just the same as legitimate exhibitors.

Please report any violations you may observe to the Sales Office in booth #21009 on the trade show floor.

#### **Personal Responsibility**

By attending GlassBuild America, attendees voluntarily assume all risks related you agree to abide by and engage in conduct that is beneficial to the health and safety of the event and all persons attending and agree not to hold the National Glass Association (NGA) or any of their affiliates, including partners, sponsors, directors, officers, employees, agents, contractors, volunteers, or sponsored venues liable for illness. Safety precautions are essential.

# 1000 Quad

## Adjustment made easy

Ideal for panels  
up to 880lbs

TESTED TO  
**10,000**  
CYCLES

### All Anthony Innovations products are

- AAMA Tested to 10,000 cycles
- AAMA 906 certified for durability
- Made with sealed precision bearings for reduced operational force
- Available in CNC machined **stainless steel**, **plated steel** or **polymer** tire options
- Multiple housing variants to suit a range of systems
- Wheel sizes available 1.10", 1.25" & 1.50"

# Van Glass Rack

See us at GlassBuild  
America, booth 13049.

## Features

- All-aluminum structure
- High-quality rubber protection
- Large splash guard
- 5-1/2 inch ledgeboard
- Removable front protection panel
- Sitting blocks every 12 inches

## Benefits

- Light
- Corrosion resistant
- Does not damage the glass
- More support protection
- Maximizes usable space with sitting blocks
- Possibility of transporting large dimensions
- Lots of options available

The new Osprey® Distortion RWE and the new BowScanner for your flat glass quality assurance.

## OSPREY® DISTORTION RWE

Engineered with key benefits to meet popular customer demands:

- ▶ Diopter measurements for accurate ASTM/EN12150 testing of Roller Wave and Edge Lift
- ▶ Detailed tests on Lead, Middle, and Trail areas for Roller Wave, Peak-to-Valley, and Edge Kink
- ▶ Precision accuracy and automated inspection at competitive pricing for wider accessibility
- ▶ 100% real-time inspection – stops defective glass immediately

**NEW**

## BowScanner OVERALL BOW

Identifies unwanted deflection of laminated or tempered glass

- ▶ Precisely identifies glass with excessive overall bow after tempering
- ▶ Prevents breakage in sorting systems for seamless operations
- ▶ Stops further processing when necessary, such as laminated or IG production
- ▶ Less downtime, more product quality

**“At Ergo Lifting Technologies (ELT), we’re driven by a simple philosophy: we design and manufacture the world’s best machines to solve the toughest challenges in glass installation.”** **DON KNOTTS**

# ERGO LIFTING T

## EXCELLENCE RUNS IN THE FAMILY

For over two decades, the founders of Ergo Lifting Technologies (ELT) have set the benchmark in the glass installation industry, creating best-in-class machines renowned for their superior design, reliability, and unmatched performance. It all started in the mid-2000s, when Bart Knotts was presented with a high-stakes challenge: installing massive glass panels at the Freedom Tower, an iconic project of national significance, with the eyes of the world watching. To meet that challenge, Bart designed a revolutionary machine that transformed glass handling—making the process safer, more efficient, and reliable. This breakthrough led to the creation of Ergo Robotic Solutions, where Bart and his son, Don Knotts—a certified underwater nuclear welder—channeled their joint expertise to engineer machines that redefined industry standards. Machines designed and built by the Knotts family have been trusted on iconic projects worldwide where stakes are high and flawless execution is crucial. From the Freedom Tower in NYC, to projects across the USA, Canada, Mexico, the Middle East, and the Caribbean, countless contractors and installers have turned to the Knotts family when no one else can deliver a workable solution. Building on decades of expertise, Don Knotts founded Ergo Lifting Technologies (ELT), leading every aspect of engineering and manufacturing, from CAD designs to final fabrication, ensuring that each machine meets the highest standards under his watchful supervision.

## BEYOND GLASS: PIONEERING INNOVATION

At Ergo Lifting Technologies (ELT), innovation isn't just about technology; it's about pushing the boundaries of what's possible. Years ago, our founders set a new standard with a line of first-in-class glass manipulators that install perfectly plumb—essential for glass and stone panels that demand precision. Today, ELT's custom-engineered manipulators and versatile lifting solutions tackle the full spectrum of installation challenges. Whether you require walk-behind, fork-mounted, or below-the-hook configurations, our equipment handles what others can't—from flat, curved, and textured glass to unitized panels, large stone slabs, metal sheets, prefabricated panels, and wall sections. Whatever the task, Ergo Lifting Technologies (ELT) has the tools to get it done with unmatched efficiency and precision.

## MAXIMIZING EFFICIENCY, MINIMIZING LABOR COSTS

We know that time is money. That's why our equipment is designed to maximize productivity while minimizing labor costs. Even small teams can handle big projects with ease, completing them quickly and efficiently. With fewer workers required, you reduce risks and expenses, all while achieving a fast return on investment. We're committed to helping you reach your material handling goals—safely, on time, and with less manpower.

**ERGO LIFTING**  
— TECHNOLOGIES —

# TECHNOLOGIES

## **SAFETY: THE HEART OF EVERY DESIGN**

At Ergo Lifting Technologies (ELT), safety isn't just a feature; it's the foundation of every design. Our machines are equipped with advanced safety systems, including redundant dual vacuum systems that minimize the risk of material breakage and precision controls that prevent operator injury. Our innovative glass harnesses ensure that even in the unprecedented event of a system failure, the glass is securely held in place within a half inch of its position. ELT is committed to exceeding industry safety standards and providing peace of mind to contractors and operators alike. As a family-owned and operated company, we're driven by a simple safety philosophy: "We want all our operators to go home every night."

## **MADE IN THE USA, BUILT TO LAST**

We're proud to be Made in the USA, sourcing only the highest quality components from the United States, including North American steel. Every machine meets our rigorous standards because we fabricate and assemble everything in-house at our facility in Wilson, North Carolina with precision-machined American-made parts. Our machines are known for their exceptional reliability and versatility, reflecting our commitment to quality at every step. And if you ever need support, you can pick up the phone and speak directly with the person who designed and built your machine—because at

ELT, our commitment doesn't end when the machine leaves the building—we're on the job round the clock, so you don't have to be.

## **OUR NATIONAL SALES AND RENTAL PARTNER**

We are proud to announce that Skyreach Equipment, Inc. has been selected as our national sales partner for sales and rentals. The team at Skyreach shares our unwavering commitment to excellence, ensuring every project is executed with a focus on customer satisfaction. For more information on sales or rentals, visit [SkyreachEquipment.com](http://SkyreachEquipment.com) or call 1-844-SKYREACH (759-7322).

**THERMAL  
EFFICIENCY**

**DONE  
RIGHT**

**ENEREDGE® FLEXIBLE, WARM-EDGE SPACER ▶  
ENERSEAL® 332 HOT MELT SEALANT**

High-performance glass is a critical component of a window unit, but it's the technology between the lites that enables the window's peak performance. Gain peace of mind knowing that the thermal performance of your window is protected with Tremco's world class IG family of products.

EnerEDGE enhances your windows thermal performance, reducing heating and cooling loss and can be applied to a wide range of fenestration applications. EnerSEAL does just that - hermetically seals the IG edge, keeping thermal gasses in and moisture vapor out.

When used together, EnerEDGE and EnerSEAL maximize the longevity and performance of insulated glass units.

**V-PERFECT**  
TECHNOLOGY

  
**GRAF SYNERGY**  
MACHINES  FOR PERFECT WINDOWS

With the unique V-Perfect technology, the SL4-FF EVO pvc seamless welder is the only welder that does NOT require any corner cleaning or manual touch up! Also, it can weld hybrid PVC + aluminum profiles while keeping the aluminium cover on! The welded boxes are then ready for hardware assembly; no more additional tables and manual labour.

In 2024 GRAF Synergy celebrated its 15th anniversary, and also in 2024 we celebrated the 1000th seamless welder.

**EMBRACE THE EVOLUTION OF WELDING AND PROCESS OPTIMIZATION.**

# Providing high-performance solutions for insulating glass, fenestration, and cladding systems for 20 years

Celebrating 20 years of driving innovation in high-performance solutions for insulating glass, fenestration, and cladding systems in the Americas. For two decades, our best-in-class building envelope products have been developed through collaboration and partnerships with our regional customers to create customized and durable solutions that boost thermal performance of insulating glass, windows, doors, curtainwall, storefront, and opaque façades.

**20**  
Years  
Americas

TECHNOFORM  
People + Ideas: connecting  
people and ideas to drive  
innovation on the edge

Come celebrate with us!

# CASSO SOLAR TECHNOLOGIES

Providing custom solutions for over 60 years

## Latest Technology in Glass Processing

Utilizing a combination of Infrared and Convection Heating for Fast & efficient for ALL Glass Types

- Coated & Uncoated
- Electrochromic
- Photochromic

### Continuous Laminating Systems

- High Volume
- Fully Automated
- Combination IR & Convection
- Coated & Uncoated Glass

### Vacuum Bag Laminating Systems

Bring your low volume laminated glass production in-house.

- Combination IR and Convection for Fast Cycle Times
- Fully Automated
- EVA, PVB, SGP, TPU

### Rolling Hearth & Ceramic Ink Firing Furnaces

- Ceramic Ink Firing
- Annealing
- Chemical Vapor Deposition Processes
- And More!

### Ink Drying Systems

- Roll coat
- Spray
- Screen Print
- Digital Print

### Single & Multi-Station Glass Bending & Casting

- Ballistic, Automotive, Architectural
- Chamber size up to 120" x 180" x 36"
- Multiple zones

### Laminated SENTRYGLAS Trim Tables

Trim interlayer faster and easier.

- Sizes up to 96" X 120"
- Optional lift arms
- Walk in sections
- Automatic guides
- Multiple voltages available

## UNLOCK ELEGANCE WITH ROCKWELL ADJUSTABLE LIFT-OFF HINGES

Introducing the Rockwell Lift Off Adjustable Hinge  
Precision Engineering Meets Unmatched Durability

- Dual Adjustability:
- Vertical: 1/4" adjustment
- Horizontal: 5/32" adjustment
- Lift Off Feature: Remove door panel without tools
- All-Metal Construction
- Concealed Bearing Design
- Independently Tested: 350,000 cycles (BHMA 156.1 standard)

Effortless adjustments.  
Seamless installations.  
Tool-free removal.

Elevate your door systems with  
Rockwell.

# Improve Your Productivity by Automating the Costly Window Screen Spline Insertion Process

**GlassBuild**  
AMERICA  
THE GLASS, WINDOW & DOOR EXPO

**Visit Us!  
Booth  
51057**

**September 30 -  
October 2, 2024**

## **Winpro Screen Express Semi-Automatic Screen Assembly Machine**

Eliminate the costly, labor-intensive manual process of spline insertion on window and door screens and improve the quality and consistency of your finished screens with the newly redesigned Screen Express System.

The Screen Express System requires minimal floor space and features automatic frame fixture positioning activated by 2D or 1D bar code scanning (or FTP download). With up to 1,000 individual style setups and up to 100 size/style file batching for extruded or roll formed screen frames, your productivity will skyrocket all while producing a higher quality finished screen giving your operation a distinct competitive advantage.

**Schedule a No Obligation, 1-on-1 Consultation**  
with a Winpro Technical Advisor today to learn more about the Screen Express System.

# SKYREACH

**We Don't Just Write Rental Tickets. We Write Success Stories.**

For over two decades, Skyreach Equipment has been recognized as the premier aerial equipment and glass/stone/tile manipulation specialist. We take pride in providing our customers with solutions to their most challenging projects that maximize efficiency, minimize costs, and ensure every job runs safely. From initial site consultation to creating a plan, coordinating equipment, training operators and directing the install, Skyreach goes the extra mile, closely collaborating with architects, building owners, property managers, general contractors, and subcontractors.

**Rentals, Sales, or Service:  
Whatever your need, Skyreach has you covered**

Headquartered in the Mid-Atlantic and with locations in Florida, North Carolina, and California, we're equipped to tackle any project across the USA and Canada.

## Equipment

- Jekko Mini Cranes
- Atrium Crawlers
- Boom Lifts
- Scissor Lifts
- Portable Trash Shoots
- Glass/Stone/Tile Manipulators- Walk Behind, Fork Mounted, Hanging

**IF YOU DON'T SEE WHAT YOU NEED, WE CAN BUILD IT!**

# Combined Expertise for Customized Solutions

## Developing the Value Chain with HEGLA Group

With machines and integrated systems from HEGLA, you can achieve maximum precision, quality and automation. Efficient software solutions optimize your production control and planning. Innovations such as laser-assisted finishings for birdfriendly glass or better cell reception further increase your added value. QR code marking makes your glass trackable in the process and in the field – for the whole product life cycle.

# WINDOW WRAP POWERBOND®

AGGRESSIVE LOW TEMPERATURE FLASHING

**Self-adhesive. Self-sealing.**  
The patented system to stick with.  
WindowWrap PowerBond® delivers cold weather flashing solutions.

## WindowWrap PowerBond® products deliver more value on the job site.

Extend your building season with our patented PowerBond® adhesive system that aggressively adheres in cold weather while remaining stable at elevated temperatures. More economical than butyl-based products, count on our WindowWrap PowerBond® products on your next project!

### WindowWrap PowerBond® Flashing Solutions

- Flex option for sill pan flashing and curved openings
- Aggressively adheres down to 25°F
- Self-seals around common fasteners
- Made in the USA

**mfm**® BUILDING PRODUCTS CORP.

# KENEX

## TPS

Excellent warm edge material can improve the thermal barrier of insulating glass due to the removal of metal spacers.

Lower water vapor and gas permeability.

Improving the U value of the edge (Warm Edge).

Minimizing condensation at the edges of insulating glass.

High automation production.

## Butyl Rubber

It features non-break on the fast running butyl coating machine.

Single-component sealant without flux.

Using imported butene rubber and polyisobutylene as basic materials.

Excellent seal ability for aluminum, glass and rustless steel.

Excellent heat endurance and good resistance to water immersion.

First choice for the first sealing of the insulating glass.

## Flexible Spacer

New improved warm edge insulated glass spacer system.

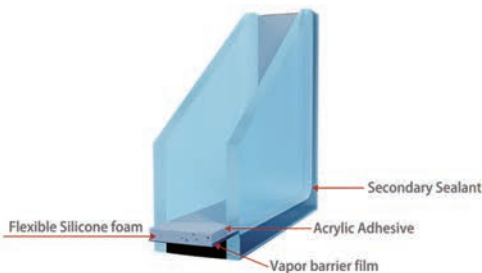

Superior thermal performance.

Moisture proof film resistance moisture vapor, Enhanced seal ability

Moisture proof film can adhere with second sealing materials, To improve the service life

Easy applications for all special shapes.

Easy applications for process, higher productivity

## TPS INSULATING GLASS LINE

### Technical Data:

Max glass size: 2700X3500mm Min 300X500mm

Dimension: 48.5mX6.5mX4m(LXWXH)

Total power: 188Kw

Air supply: 0.6-0.8Mpa, 2<sup>3</sup> /min

Transmission: 500-550mm

Angle: 6°-9°

Washing speed: 1-10m/min; Single glass thickness:3-15mm

Coating speed: 1-27m/min

IG thickness: 12-75mm;Press error+0.5mm;Automatic gas filling

Manufacture clear glass ,LOW-E

## FLEXIBLE SPACER INSULATING GLASS LINE

### Characteristics:

**Glass Washer Quality:** Sand and carbon filters with soft coat low-e brushes ensure the glass is clean and scratch free. Air knives ensure the glass is dry.

**Inspection and spacer placement conveyor panel special treatment,** convenience for glass inspection.

**Super Spacer Applicator:** Precision application at high speeds for maximum output.

**Application head** allows for inverse comers and variable shapes.

**Pressing Quality:** Ensures excellent sealant adhesion and pressed to overall unit thickness with tight tolerances. Optional gas fill with initial percentages 90%.

**Additional Option:** Automatic glass placement at infeed and outfeed further reduces labor costs.

The line makes choices for IG with Super Spacer and traditional aluminum spacer.
